Udhampur – 184205

Career Objective

Aspiring to foster a collaborative tech community by organizing events that promote innovation and learning. Eager to empower peers while growing as a leader through real-world problem solving and Google technologies.

Education Qualification

B.E(CSE) Computer Science and Engineering

M. Kumarasamy College of Engineering, Karur. 2024-2028
CGPA : 7.6 (upto 2nd Semester)

HSC : Higher secondary School Garh Dhamma 2023– 75%

SSLC : Higher secondary School Garh Dhamma 2021 – 76 %

Area of Interest

- Artificial Intelligence (AI)
- Research

Technical Skills

- Python
- C,C++
- JAVA(Basic)
- SQL Database
- Html,Css

Soft Skills

- Communication Skills
- Teamwork & Collaboration

Academic Projects

Title : BLACK AND WHITE IMAGE COLORIZATION SYSTEM

The Black and White Image Colorization System is an AI-based application designed to automatically convert grayscale images into realistic colored images. The system uses deep learning techniques to analyze image features, textures, and patterns, and then intelligently predicts suitable colors. This project ensures high accuracy, smooth image processing, and an improved visual experience while reducing manual effort.

Title : WATERMARK ADDER APPLICATION

The Watermark Adder Application is a utility-based project designed to add watermarks to images for copyright protection. It allows users to upload images and apply customized watermarks efficiently. The system ensures image quality preservation while providing a simple and effective solution for digital content security.
