

PUNIT BADYAL

Computer Science Engineering Student | Aspiring Full Stack Developer
+91 7780886857 | punitbadyal01@gmail.com | India | Jammu & Kashmir |
Udhampur 184205

PROFESSIONAL SUMMARY

Results-driven Computer Science Engineering student with a strong foundation in Java, Python, and full-stack web development, complemented by practical exposure to Data Structures & Algorithms, Object-Oriented Programming, and Database Management Systems. Demonstrated ability to design and build end-to-end software applications, including desktop and database-driven systems, through academic projects and a hands-on software development internship. Growing interest in Artificial Intelligence and problem solving, backed by industry-recognized certifications and consistent practice on competitive coding platforms. Seeking a software engineering internship to apply technical skills, contribute to real-world projects, and grow as a full stack developer.

TECHNICAL SKILLS

Programming Languages: Java | Python | C | SQL | JavaScript

Web Technologies: HTML5 | CSS3 | JavaScript

Database: MySQL

Tools & Platforms: Git | GitHub | VS Code | XAMPP

Core Subjects: Object-Oriented Programming | Data Structures & Algorithms | Database Management Systems | Operating Systems

INTERNSHIP EXPERIENCE

Software Development Intern

15-Day Online Internship

Apex Production | Stipend: ₹1,000

- ▶ Assisted the development team with software development tasks, hands-on project implementation, and practical coding assignments.
- ▶ Collaborated closely with mentors to strengthen debugging skills and understand professional software development workflows.

KEY PROJECTS

Online Courier Management System

Java Swing | MySQL

- ▶ Developed a desktop-based courier management application with secure authentication, parcel booking, shipment tracking, cost calculation, and an administrator dashboard.

Movie Ticket Booking System

DBMS | MySQL

- ▶ Designed a database-driven ticket booking system managing movies, theatres, seat reservations, and customer records using efficient SQL queries.

To-Do List Application

Python

- ▶ Built a Python-based task management tool with a simple, user-friendly interface to add, update, delete, and organize daily tasks.

EDUCATION

Bachelor of Engineering — Computer Science and Engineering

2024 – 2028

M. Kumarasamy College of Engineering | Current CGPA: 7.6 / 10

Higher Secondary Education (Class XII)

State Board | 72%

Government Higher Secondary School, Garh Dhamma

Secondary Education (Class X)

State Board | 75%

Government Higher Secondary School, Garh Dhamma

CERTIFICATIONS

- ▶ Google AI Agentic Course (5-Day Program)
- ▶ NPTEL — Human Computer Interaction
- ▶ NPTEL — Organizational Behaviour

CODING PROFILES

GitHub: github.com/punitbadyal01-blip

LeetCode: leetcode.com/u/punitbadyal

HackerRank: hackerrank.com/profile/punitbadyal01

ACHIEVEMENTS

- ▶ Developed multiple academic software projects using Java, Python, and MySQL.
- ▶ Completed industry-recognized certifications in Artificial Intelligence and Human-Computer Interaction.
- ▶ Successfully completed a software development internship with Apex Production.
- ▶ Active learner of Data Structures and Algorithms through consistent practice on coding platforms.
